## Definitions

In this **Covid-19 Risk Assessment**, unless the context otherwise requires, the following expressions shall have the following meanings:

- I. **'The Romero Catholic Academy'** means the Company named at the beginning of this **Covid-19 Risk Assessment** and includes all sites upon which the Company is undertaking, from time to time, being carried out. The Romero Catholic Academy includes; **Corpus Christi, Good Shepherd, Sacred Heart, Blue Sky, SS Peter and Paul, St Gregory, St John Fisher, St Patrick, Cardinal Wiseman, Shared Services Team.**
- II. **'Romero Catholic Academy'** means the Company responsible for the management of the Academy and, for all purposes, means the employer of staff at the Company.
- III. **'Board'** means the board of Directors of the Romero Catholic Academy.
- IV. **'Chair'** means the Chair of the Board or the Chair of the Local Academy Committee of the Academy appointed from time to time, as appropriate.
- V. **'Clerk'** means the Clerk to the Board or the Clerk to the Local Academy Committee of the Academy appointed from time to time, as appropriate.
- VI. **'Catholic Senior Executive Leader'** means the person responsible for performance of all Academies and Staff team within the Multi Academy Company and is accountable to the Board of Directors.
- VII. **'Diocesan Schools Commission'** means the education service provided by the diocese, which may also be known, or referred to, as the Birmingham Diocesan Education Service.
- VIII. **'Local Academy Committee'** means the governing body of the School.
- IX. **'Academy Committee Representatives'** means the governors appointed and elected to the Local Academy Committee of the School, from time to time.
- X. **'Principal'** means the substantive Principal, who is the person with overall responsibility for the day to day management of the school.
- XI. **'School'** means the school or college within The Romero Catholic Academy and includes all sites upon which the school undertaking is, from time to time, being carried out.
- XII. **'Shared Services Team'** means the staff who work in the central team across the Company (e.g. HR/ Finance)

## 1. Introduction

Coventry's Partnership of schools agreed a collaborative and consistent approach to secure the safe re-opening of schools across the City as set out in 'Coventry Schools Covid-19 Re-set and Recovery Plan' May 2020. On 2<sup>nd</sup> July 2020 guidance for the full reopening of schools to all pupils from September 2020 was published:

[Guidance for full opening of schools](#)

*These changes are fully reflected in this guidance and risk assessment.*

***This risk assessment focuses on balancing the risk of children returning to school and accessing a full educational experience with the "very low risk from coronavirus (COVID-19)" (source: Government Guidance July 2020)***

In preparing and reviewing this guidance the Local Authority has had regard to advice from both the Health and Safety Executive and Government. It has noted that the Government made explicit within the guidance those actions that are statutory, those actions that MUST be undertaken (Public Health Advice) and those that are advisory (for consideration if it is reasonably practicable to do so).

It is made clear that Government advice "does not supersede any legal obligations relating to health and safety, employment or equalities and it is important that as an employer you continue to comply with your existing obligations". Consequently, Health and Safety Legislation continues to take precedence.

### **This risk assessment guidance:**

- Sets out the current context and statutory health and safety obligations as at July 2020 to take effect from September 2020.
- Reflects the relevant principles set out in Coventry schools Covid-19 Re-set and Recovery Plan
- Sets the national and local context for conducting a risk assessment to reduce transmission of a disease within school
- Provides an exemplar risk assessment that can be adopted and adapted to any educational setting
- Provides a template to record a risk assessment method statement (RAMS) – setting out safe methods of working (control measures), which all staff should read, understand and sign
- Incorporates hyperlinks to sources of helpful information and resource

**What is the risk?** Covid19 is an infectious disease recognised internationally as a pandemic, the transmission of which must be controlled. The foreseeable risk in re-opening schools, is the potential transmission of Covid19 between members of the school community and consequently the wider community. This risk assessment therefore focuses on actions that are reasonably practicable to implement, that will reduce the risk of transmission of Covid19 as a consequence of re-opening schools to all pupils and staff, recognising that the virus is in general circulation and the risk is significantly lower than in the Spring/early Summer of 2020

**Who is responsible?** The employer is responsible for making sure that risks, particularly the risks to staff and pupils, are managed so far as is reasonably practicable. For The Romero Catholic Academy, it is the Board of Directors who consult the Academy Committee in each school.

Whilst it is recognised that the employer cannot delegate the overall legal accountability for the health and safety of employees; the day-to-day running of the school including responsibility for the health and safety of staff and pupils is ordinarily delegated to the Principal and school management team. ## 2. Overview of actions required for safe working

- Put in place sensible approaches to minimise the risk of Covid19 transmission to staff, pupils and visitors whilst in school.
- Communicate the risks and required safe methods of working to all building users including parents/carers
- Ensure that staff (employees) have the relevant information and training to manage risks on a day to day basis, including access to competent health and safety advice where needed.
- Check that the control measures have been implemented and remain appropriate and effective.
- Ensure that the control measures are monitored throughout the day and reviewed where necessary.

### 2.1 Key Message

Good health and safety is about keeping things simple, being proportionate and focusing on the real (substantive) risks. Procedures should be clear and concise with assessment of risk being practical. Good leadership is about getting the balance right on managing risk rationally, it is not about trying to eliminate it altogether.

### 2.2 What Leaders need to do

- Ensure that the school is following the employer's health and safety policy and has effective arrangements for managing the health and safety risks at the school.
- Maintain effective communications with employers, governors, and the school workforce, and give clear information to pupils and visitors, including contractors, regarding any significant risks on site.
- Make sure that the staff have the appropriate training and competencies to deal with risks in their areas of responsibility.
- Consult and work with recognised TU safety representatives/employee representatives and safety committees.
- Consult and engage employees in the development of the risk assessment and ongoing review
- Make sure that staff understand their responsibilities and know how to access support and advice to help them manage risks responsibly.
- Provide visible leadership to the whole school so that staff feel motivated, supported and empowered to focus on the things that really matter.

## 3. Locally Agreed Principles

### Coventry schools Covid-19 re-set and recovery Plan' May 2020 - Revised July 2020

- The safety of everyone in school is paramount
- A consistent and co-ordinated approach and communication will be maintained across the Coventry school system
- Adherence to social distancing will be maintained as far as practicably possible in all classroom and school environments
- Best endeavours will be deployed to minimise the number of contacts staff and pupils have within school and ensure consistency in the groups pupils are placed within and staff teach/support
- School organisational planning will minimise the number of pupils that each staff member has contact with
- Schools will reserve the option of a "staff re-set day" and other opportunities for staff to come on site prior to working with children in September 2020

#### 4. What we know

The World Health Organisation (WHO) confirms that data from published epidemiology and virologic studies provides evidence that COVID-19 is primarily transmitted directly from symptomatic people (those infected with Covid19 displaying symptoms) to others who are in close contact with the infected person. Respiratory droplets are passed on directly through coughing and sneezing, or indirectly by contact with contaminated objects and surfaces; where the virus may be transferred from the surface to the hand and then the face - eyes, nose or mouth. It is understood that people can be infectious before their illness starts. Therefore, to minimise the risk of transmission, settings must put into place effective infection protection and control. Ensuring appropriate social distancing in school, meticulous hand hygiene practice all serve to reduce risk significantly.

The balance of risk is now overwhelmingly in favour of children returning to school. For the vast majority of children, the benefits of being back in school far outweigh the very low risk from coronavirus (COVID-19)

**The hierarchy of controls:** if properly implemented will substantially reduce the risk of transmission of infection.

**These include:**

**Exclusion:-**

- Minimising contact with individuals who are unwell by ensuring that those who have coronavirus symptoms, or who have someone in their household who does, do not attend childcare settings, schools or colleges. Covid19 tests for symptomatic household member/s **must** confirm **the outcome of the Covid-19 test if taken as soon as the results are known.**
- Clinically vulnerable **employees** who are at higher risk of severe illness (for example, people with some pre-existing conditions as set out in the [staying at home and away from others \(social distancing\)](#) guidance **should be supported in undertaking a Vulnerable Employee Risk Assessment (VERA) and reasonable adjustments made if necessary**, which may include additional protections within the school environment or if possible working from home supporting the delivery of the curriculum for children unable to attend school as a consequence of self-isolation or local lockdown

**Hygiene:-**

- A stringent cleaning regime should be in place [COVID-19: cleaning in non-healthcare settings](#). At the highest level this could follow the advice set out in: [Covid-19-decontamination-in-non-healthcare-settings](#)
- Frequent cleaning and disinfecting of objects and surfaces that are touched regularly (touch points), should be undertaken using standard cleaning products or antiseptic wipes, both of which kill the virus. This may require settings to enhance cleaning capacity. It should be recognised that cleaners and caretakers provide the frontline in protecting everyone in school, but health and safety is everyone's responsibility so cleaning tasks may be undertaken by any member of staff as appropriate.
- Socialising hygiene routines including regular hand-cleaning regimes - washing hands thoroughly for 20 seconds with running water and soap, drying them thoroughly or using alcohol hand rub or sanitiser ensuring that all parts of the hands are covered. Identify specific situations when additional handwashing is required
- Ensuring good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach with follow up handwashing and cleaning/wiping of any contaminated area followed by safe disposal of waste
- Maximise natural ventilation and access to the external learning environment

## Social Distancing:-

- Secure social distancing and/or minimise the range of contacts an individual pupil and member of staff have whenever practicably possible, through group designation, footfall management and planned supervised movement throughout the school building
- Regulate entry so that the premises do not become overcrowded at any point ensuring no 'pinch points' are experienced at ingress or egress
- Where it is possible to remain 2 metres apart, continue to use floor markings/signage to mark the distance and facilitate compliance, particularly in corridors, hand cleaning areas, toilets and internal and external communal break areas. Primary age children and those with cognitive functioning that makes social distancing difficult, can socialise with children within their designated group (bubble)
- Ensure the environment (such as classroom layout) and timetables are conducive with social distancing – remove all clutter and non-essential resources. Desks/tables where practicably possible should be forward facing – pupils should avoid facing each other or sitting side by side.
- Minimise social contact by forming fixed groups of staff and children and avoiding movement between or blending of groups whenever possible. This may be a whole class group or if that is not possible e.g. secondary a whole year group. It is accepted that staff may have to deliver to more than one group, which is permissible, but contacts should be minimised and social distancing adhered to when possible. Within the secondary school the year group bubbles will have designated buildings where they will access all of their lessons.
- Where face-to-face contact is essential, this should be kept to 15 minutes or less whenever possible, contact should be side by side.
- Social distancing is not required in an emergency situation, e.g. medical emergency, fire evacuation etc. PPE should be used in a medical emergency if time permits (a first aid supply of PPE has been provided to all schools to secure an individual emergency situation, for example a sudden illness that may be Covid19 symptomatic of a child or staff member in school)

## 5. Summary

These underlying principles are the key focus for organising all aspects of the school day and need to be built into the operational routine. A model Covid19 operational risk assessment was developed for City-wide use, which is pre-populated with generic safe methods of working. It was advised that if adopted, it would need to be adapted to each specific setting. The risk assessment template has been reviewed to reflect the changes in risk and necessary controls from September 2020 when all pupils return to school on a full-time basis. In addition to infection control, the risk assessment template and supporting resources extends to support additional health and safety considerations related to the consequences of Covid19 specifically:

- Securing provision for SEN – from September 2020 the provisions in a child's Education, Health and Care Plan must be delivered. This means that peripatetic support teachers and health therapists will be able to work within schools, by adhering to the schools' visitors policy thereby balancing the risk of allowing external visitors into school with the duty of best endeavours to provide (school may adopt the LAs model policy for visiting professionals).
- Health and safety audit of the school building checklist – for use by class teachers (HSE) to ensure that the overall building is safe to use in terms of trips, falls, lighting, electricity hazards etc.
- Staff audit and recovery plans for absence of leadership, teachers, non-teaching staff, cleaners, first-aiders and DSL and response to Local Lockdown
- Maintaining communications with parents, staff, visitors and the general public
- Supporting the mental health and well-being of everyone in school
- Developing a recovery curriculum
- Developing a contingency plan to secure flexible support for home schooling, if a need arises as a consequence of group isolation; whole school isolation or local lockdown.

## Model COVID-19: Operational Risk Assessment for school reopening

Please note: this risk assessment should be undertaken in conjunction with the covering guidance which absorbs statutory requirements and Government guidance available as **at July 2020**. Control measures have been used to exemplify actions that could be taken to mitigate the risk, which you can use or change. Please add additional Activity (risks) as deemed necessary and delete any activity that does not apply to your school. The table is designed to enable you to re-order risks/priorities as required.

Assessment conducted by:		Job title:		Covered by this assessment:	Staff, pupils, contractors, visitors, volunteers

#### 4. Planning Movement around the school

<p><b>Movement around the school risks breaching social distancing guidelines</b></p>	<p>M</p>	<ul style="list-style-type: none"> <li>• Circulation plans have been reviewed and revised.</li> <li>• One-way systems are in place where possible.</li> <li>• Corridors are divided where feasible.</li> <li>• Appropriate signage is in place to clarify circulation routes.</li> <li>• Pinch points and bottle necks are identified and managed accordingly.</li> <li>• Movement of pupils around school is minimised as much as possible, with pupils staying in classrooms and utilising any external learning environment that is available</li> <li>• Pupils are regularly briefed regarding observing social distancing guidance.</li> <li>• Appropriate levels of supervision and guidance are in place</li> <li>• Year 10 based in St Luke so that they are separate from vulnerable pupils. This area is separated by fence.</li> <li>• If there is inclement weather, Y10 students will go straight to their assigned classrooms rather than lining up.</li> <li>• During intense periods of rainfall, pupils will move directly to their classrooms as designated by the 'bubbles' and remain there during break and lunch if required.</li> <li>• During periods of intense heat the internal inclusion room will be moved from JS05 to the sixth form common room. Pupils will enter the sixth form common room via the garden area to avoid movement along the internal corridors. On these days, as a precaution, any sixth form meetings due to be held in the sixth form room will be cancelled. Site team will also be informed to allow for cleaning to take place in the sixth form centre at the end of the day.</li> <li>• <b>Students and social distancing:</b> Mrs Hirons will be speaking with all Team Leaders about this, and SLT are available to run Internal Inclusion for those who continually defy requests. There are a number of students who are struggling with this and many have been in ill over the past week. However, some students with ASD do not have a concept of social space and struggle with social distancing - and we have to adjust our provision to allow for this. The government has acknowledged that over 700,000 UK citizens with autism may not be able to observe the social distancing rule where possible, which has been supported by the National Autistic Society. With these specific students, we must not sanction them for their learning need, but work with them and the Team Leader for that day to adjust our provision so that risk is minimised for all concerned</li> <li>• <b>Access to Internal Inclusion and JS:</b> All staff have been advised not to walk through classrooms or the HLTA office to reach other rooms within JS. Use the outside doors. Do not use the cups or the phones in there either, as this increases the risk of possible contamination and is dangerous to the team who work in there throughout the week</li> </ul>	<p>Y</p>	<ul style="list-style-type: none"> <li>• Year groups will be allocated to buildings to avoid mixing in corridors. No two year groups will be moving in the same space at any one time</li> </ul>	<p>L</p>

#### 4.2 Management of Aggress and Egress – arrival and departure

<p><b>The start and end of the school day create risks of breaching social distancing guidelines</b></p>	<p>M</p>	<ul style="list-style-type: none"> <li>Parents have clear information on drop-off, pick up procedures whether on foot or driving with clear signage in place</li> <li>Start and departure times are staggered to reduce pinch points and risk of breach <b>if this is possible without reducing the overall teaching time for pupils</b></li> <li>A clear traffic management scheme is in place that allows safe queuing of vehicles monitored on the school gate with a drop-off and go procedure in place</li> <li>All available safe exits are utilised to leave the school building, with clear safeguarding procedures in place to ensure children are handed over to their parents</li> <li>Segregation of groups is considered wherever practicable</li> <li>Floor markings are visible where it is necessary to manage any queuing.</li> <li>Year 10 (25%) to arrive at 9.30am and leave at 1.30pm after lunch</li> <li>Pupils of Critical workers to arrive at 9am and leave at 3pm to stagger around Y10</li> <li>Year 12 to engage fully in remote learning</li> <li>All Y12 to be offered a 1:1 academic review.
